Session 7: Seven One

Summary: Up until about minute 10, it's all about the explorer describing physical and energy sensations.

At around 14:00 she mentions "Seven One", an entity she met before.

Still struggling with sensations and energies, difficulty to "get out of the way", this continues on to about 25:00

27:00 Channeling starts. The content is not very meaningful. It revolves around the quality and aspects of the contact itself.

55:40 End of Channeling

1:00:00 End of session and debrief.
